

About Our Dino Digs and Expeditions

- Minimum age is noted for each expedition. Those 16 or younger must be accompanied by a paying adult on all expeditions.
- Field work can be accompanied by excessive heat and biting gnats. Participants should bring insect repellent and sunscreen with them.
- Weather conditions can change quickly. Participants should dress in layers, bring hats, and sturdy shoes.
- Shade tarps are provided at Callison and Mygatt-Moore quarries.
- Lunch is included on full and multi-day digs only.
- Lodging is not included in the cost of the expedition.
- Online bookings on weekends and federal holidays will experience a delay in processing. Please allow enough time for your booking to be processed before the expedition date to guarantee your spot.
- Registration and medical forms must be completed before your registration is complete.

Cancellation / Refund Policy

- Cancellations prior to three weeks in advance of the expedition date will be refunded at 80% of the expedition cost (total cost, less the 20% non-refundable deposit).
- All cancellations within three weeks prior to the expedition date and all no-shows forfeit full price; no refunds or credits will be issued for unused portions of the Paleontology Expeditions.
- If the Museum cancels the expedition due to weather or any other reason, we will do our best to make alternate arrangements, reschedule your expedition, or refund your registration in full.
- These cancellation policies are strictly enforced as our expeditions fill up fast.
